# Sekilas Surveyor Indonesia

## *Surveyor Indonesia in Briefs*

PT Surveyor Indonesia atau yang disebut dengan Surveyor Indonesia adalah perusahaan yang bergerak di bidang inspeksi dan audit, pengujian dan analisis, sertifikasi, konsultasi, dan pelatihan yang didirikan pada 1 Agustus 1991.

Pada tanggal 5 Mei 2021, Pemerintah menerbitkan Peraturan Pemerintah (PP) NO.66 Tahun 2021 tentang Penambahan Penyertaan Modal Negara Republik Indonesia ke dalam Modal Saham Perusahaan Perseroan (Persero) PT Biro Klasifikasi Indonesia. Hal ini secara prinsip menandai babak baru perjalanan tiga perusahaan jasa survei; PT Biro Klasifikasi Indonesia (Persero), PT SUCOFINDO, dan PT Surveyor Indonesia menjadi Holding BUMN Jasa Survei dengan nama ID Survey. Kemudian secara resmi ditandatangani akta Holding melalui RUPSLB BUMN Jasa Survei pada tanggal 16 Desember 2021.

Surveyor Indonesia berkantor pusat di Jakarta dan memiliki 12 kantor cabang serta beberapa unit wilayah kerja di seluruh Indonesia. Kami menyediakan pelayanan baik di pasar dalam negeri maupun luar negeri.

Pada tahun 1998, Surveyor Indonesia melakukan sejumlah diversifikasi produk jasa berbasis survei, verifikasi, monitoring, dan konsultansi. Pada tahun 2008, Surveyor Indonesia melakukan re-focusing pada bisnis yang sudah dijalankan dengan mengoptimalkan kekuatan sebagai independent assurance. Kemudian pada tahun 2010, Surveyor Indonesia membentuk 6 (enam) unit bisnis strategis dengan mengembangkan kompetensi pegawai.

*PT Surveyor Indonesia known as Surveyor Indonesia is a company engaged in inspection and auditing, testing and analysis, certification, consulting, and training which was established on August 1st, 1991.*

*On 5th of May 2021, the Government issued Government Regulation (PP) No. 66 / 2021 about the addition of Republic of Indonesia's Equity Participation into the Share Capital of the Limited Liability Company (Persero) PT Biro Klasifikasi Indonesia. This principle marked as a new chapter in the journey of three survey service companies; PT Biro Klasifikasi Indonesia (Persero), PT SUCOFINDO, and PT Surveyor Indonesia that became BUMN Survey Services Holding named ID Survey. Then the holding deed was officially signed through General Meeting of Extraordinary Shareholders of BUMN Survey Services on 16th of December 2021.*

*Surveyor Indonesia is headquartered in Jakarta and has 12 branch offices and several work areas throughout Indonesia. We provide services for both domestic and foreign markets.*

*In 1998, Surveyor Indonesia diversified its services into surveys, verification, monitoring, and consulting. In 2008, Surveyor Indonesia re-focused on its existing business by optimizing its strengths as independent assurance. Then in 2010, Surveyor Indonesia formed 6 (six) strategic business units to develop employee competencies.*

YOUR  
**TRUSTED** PARTNER  
FOR **ASSURANCE**

Pada tahun 2015, dilakukan penguatan bisnis terhadap 4 (empat) sektor yaitu Kelembagaan & Institusi, Infrastruktur, Batubara & Mineral, Migas & Energi. Pada tahun 2016, Surveyor Indonesia meluncurkan tagline baru yaitu "Your Trusted Partner for Assurance".

Adapun pasar yang dilayani mencakup bidang industri, pemerintah, pengembangan wilayah, minyak dan gas bumi, mineral, sistem dan sertifikasi, lingkungan, pertanian, serta manajemen outsourcing. Layanan independent assurance dari Surveyor Indonesia difokuskan pada 5 (lima) sektor yaitu industri dan perdagangan, energi dan sumber daya mineral, telematika, transportasi, pertanian, kehutanan, kelautan dan lingkungan hidup.

*In 2015, business strengthening was carried out in 4 (four) sectors, namely Government & Institution, Infrastructure, Coal & Mineral, Oil, Gas, & Energy. In 2016, Surveyor Indonesia launched "Your Trusted Partner for Assurance" as its tagline.*

*The markets we served include industry, government, regional development, oil and gas, minerals, certification, environment, agriculture, and outsourcing management. Furthermore, our independent assurance services are focused on 5 (five) sectors, namely industry and trade, energy and mineral resources, telematics, transportation, agriculture, forestry, marine, and environment.*

# Sambutan Direktur Utama

PT Surveyor Indonesia kian mantap mencapai visi sebagai perusahaan pemberi jaminan yang tidak memihak dalam setiap transaksi (independent assurance). Pengalaman kami melayani pasar jasa tersebut selama ini menjadi kekuatan utama yang didukung oleh sumber daya manusia yang memiliki pengalaman dan kompetensi fungsional yang kuat dalam memberikan pelayanan terbaik bagi para pelanggan kami. Bidang jasa yang kami layani mencakup Kelembagaan & Institusi, Infrastruktur, Batubara & Mineral, Migas & Energi.

Bagi kami, pelanggan adalah sumber inspirasi dalam memberikan layanan terbaik. Kami senantiasa berusaha memberikan nilai tambah terbaik dengan menyediakan

solusi secara total, layanan yang khas dan pas berstandar internasional, serta berbasis pada integritas, inovasi, dan teknologi.

Kami juga senantiasa menciptakan iklim kerja yang kondusif guna mendorong peningkatan kompetensi, profesionalisme, inovasi, pengembangan karir demi meraih peningkatan kinerja perusahaan dan kemajuan yang berkesinambungan.

Pencapaian kinerja tersebut tidak terlepas dari langkah-langkah penyelarasan unsur-unsur manajemen strategis yang diterapkan dalam pengelolaan perusahaan. Hal ini dikukuhkan dengan penetapan visi, misi, arah, sasaran, strategi, dan program strategis PT Surveyor Indonesia yang memberikan landasan bagi arah proses bisnis seperti harapan seluruh jajaran manajemen, yaitu menjadi mitra terpercaya dalam bidang independent assurance dengan kompetensi tinggi untuk berkiprah di pasar global.

**Sandry Pasambuna | Direktur Utama President Director**

## *Message from the President Director*

*PT Surveyor Indonesia is confident to achieve its vision statement to become a provider of independent assurance in every transaction. Our vast experience in this market has become the major power coupled with highly experienced and competent human resources capable of delivering the best services for our customers. The sectors that we are ready to serve include Government & Institution, Infrastructure, Coal & Mineral, Oil, Gas, & Energy. To us, the customers are the source of inspirations to deliver qualified services.*

*We thrives to provide the best added-value, by providing total solutions, customized services using international standards, and which are based on integrity, innovation, and technology application. We also thrives to develop a conducive working environment for advancing our competencies, professionalism, innovations, personnel career development in order to ensure improved performance and sustainable growths for the company.*

*The attainment of the targeted performance will always call for the concerted actions of all the strategic management components being implemented in the company management. This was achieved by putting in place the visions, missions, goals, strategy and strategic programs of PT Surveyor Indonesia which will provide the bases and directions for the business processes according to the expectation of the management, namely to become the leading partner in the field of independent assurance with high competence in order to be able to compete in the global market.*

- *Project Management Consultant*
- *QA/QC Supervisi*
- *Construction Supervision of Oil and Gas*

## Tingkat Komponen Dalam Negeri

TKDN (Tingkat Komponen Dalam Negeri) adalah layanan jasa dalam memberikan pelayanan verifikasi kegiatan yang dilakukan oleh pengguna barang/ jasa untuk pencocokan capaian TKDN yang dinyatakan sendiri oleh penyedia barang/ jasa dengan data-data yang diambil atau dikumpulkan dari kegiatan usaha penyedia barang/ jasa.

### Jenis Produk Jasa

1. Verifikasi Kemampuan Industri
2. Verifikasi TKDN Industri Dalam Negeri
3. Verifikasi TKDN sektor :
  - Hulu Minyak & Gas Bumi
  - Ketenagalistrikan
  - Kesehatan
  - Komunikasi & Informatika (KOMINFO)
  - Pertahanan
  - Pekerjaan Umum Perumahan Rakyat
  - Perhubungan
  - Dan sebagainya

## Jasa Layanan Sertifikasi

Layanan Sertifikasi adalah layanan jasa untuk memastikan kesesuaian sistem manajemen terhadap standar yang dituju. PT Surveyor Indonesia telah ditunjuk oleh Kementerian Tenaga Kerja melalui Surat Keputusan Menakertrans No. KEP. 14/ M/ DJPPKJ/ III/ 2012 tentang perpanjangan sebagai Penyelenggara Audit SMK3, sedangkan untuk bidang pariwisata PT Surveyor Indonesia telah ditunjuk melalui Surat Keputusan Menteri Pariwisata Dan Ekonomi Kreatif No. KM.47/ HK.501/ MPEK/ 2014 tentang Penunjukan dan Penetapan PT Surveyor Indonesia sebagai Lembaga Sertifikasi Usaha Bidang Pariwisata.

### Jenis Produk Jasa

- Sertifikasi Manajemen Keselamatan & Kesehatan Kerja (SMK3)
- Sertifikasi Laik Operasi (SLO) Instalasi Tenaga listrik

Layanan jasa independen yang mendukung para pelaku bisnis di dunia pertambangan untuk memastikan kualitas dan kuantitas komoditi mineral dan batubara, mulai dari tahapan eksplorasi, eksplorasi sampai dengan delivery ke end user.

## Domestic Component Level

*TKDN (Domestic Component Level) are services in providing service of activities verification that is performed by the user of goods/services for conforming the achievements of TKDN expressed solely by the provider of goods/services with data taken or collected from business activities of goods/services provider.*

### Type of Product Services

1. *Verification of Industry Capability*
2. *Verification of Domestic Industry TKDN*
3. *TKDN sector verification :*
  - *Upstream Oil & Gas*
  - *Electricity*
  - *Health*
  - *Communication & Information (KOMINFO)*
  - *Defense*
  - *Public Works Public Housing*
  - *Transportation*
  - *Etc*

## Certification Services

*Certification services are services to ensure the conformity of management systems to the standards concerned. PT Surveyor Indonesia has been appointed by the Ministry of Manpower through the Decree of the Minister of Manpower No. KEP.14/M/DJPPKJ/III/2012 regarding the extension as SMK3 Audit Operator, and for the tourism sector PT Surveyor Indonesia has been appointed by Decree of the Minister of Tourism and Creative Economy No. KM.47/HK.501/ MPEK/ 2014 regarding Appointment and Determination of PT Surveyor Indonesia as a Tourism Business Sector Certification Agency.*

### Type of Product Services

- *SMK3 Certification Audit*
- *Operational Worthiness Certification (SLO) for Electrical Power Installation*

*Independent services that support business people in the mining world to ensure the quality and quantity of mineral and coal commodities, starting from the exploration, exploitation stages to delivery to end users.*

# Batubara & Mineral

## Coal & Mineral

PT Surveyor Indonesia melalui Divisi Bisnis Strategis Batubara & Mineral menawarkan berbagai jasa inspeksi, survei, konsultasi, sertifikasi dan layanan uji laboratorium untuk mendukung industri pertambangan mineral dan batubara di Indonesia. Semua jasa yang ditawarkan telah menggunakan standar nasional dan internasional dengan metode dan teknologi yang modern, efektif, efisien, serta didukung oleh personil yang berkompeten dan profesional.

### Eksplorasi dan Eksplorasi Tambang

Layanan jasa konsultasi, survei dan inspeksi yang diberikan oleh PT Surveyor Indonesia untuk memberikan informasi dan solusi dengan pendekatan metode yang baru, efektif, efisien dan praktis sehingga nantinya dapat memberikan nilai tambah yang tinggi kepada klien kami dengan memanfaatkan kemampuan teknikal dan pengalaman yang mendalam terhadap tujuan bisnis klien

### Jenis Produk Jasa

1. Pemetaan Tambang
2. Survei Eksplorasi Tambang
3. Studi Kelayakan Tambang
4. Due Diligence Tambang
5. Jasa Pengukuran dan Pemasangan WIUP/ WIUPK
6. Supervisi Produksi Tambang

### Survei Kualitas

Merupakan layanan jasa survei dan pengujian terhadap kualitas komoditi/ produk dari batubara dan mineral di laboratorium, yang diawali dari proses sampling yang dilakukan di setiap tahapan proses penambangan. Dilakukan secara akurat dengan menggunakan standar yang diakui secara nasional maupun internasional dengan dukungan layanan laboratorium yang terakreditasi ISO 17025:2017. PT Surveyor Indonesia mendukung industri pertambangan mineral dan

*PT Surveyor Indonesia through the Coal & Mineral Strategic Business Division offers a variety of inspection, surveying, consulting, certification and laboratory testing services to support the mineral and coal mining industry in Indonesia. All services offered have used national and international standards with methods and technologies that are modern, effective, efficient, and supported by competent and professional personnel.*

### Mining Exploration and Exploitation

*Consultation, survey and inspection services provided by PT Surveyor Indonesia to provide information and solutions with new, effective, efficient and practical method approaches so that later it can provide high added value to our clients by utilizing technical capabilities and in-depth experience of clients' business goals*

### Types of Product Services

1. Mine Mapping
2. Mining Exploration Survey
3. Mine Feasibility Study
4. Due Diligence Mine
5. Measurement and Installation Services of WIUP/ WIUPK
6. Supervision of Mining Production

### Quality Survey

*Quality Survey is a survey and testing service on the quality of commodities / products from coal and minerals in the laboratory, which starts from the sampling process carried out at each stage of the mining process. Accurately carried out using standards that are recognized nationally and internationally with the support of ISO 17025: 2017 accredited laboratory services. PT Surveyor Indonesia supports the mineral*

batubara melalui penyediaan jasa pengujian produk dengan mendirikan laboratorium baik di lokasi tambang maupun di kantor cabang kami terdekat dengan lokasi tambang yang tersebar di seluruh Indonesia.

#### Jenis Produk Jasa

1. Analisa Kualitas
2. Channel sampling
3. Inspeksi Pra-Pengiriman
4. Shipment Sampling
5. Kontrol Kualitas
6. Bias Test

#### Survei Kuantitas

Merupakan layanan jasa survei perhitungan jumlah terhadap komoditi/ produk dari batubara dan mineral, yang dapat dilakukan disetiap tahapan kegiatan di lokasi penambangan, sampai dengan proses pengiriman yang dilakukan oleh inspector yang berpengalaman dan berkompetensi sesuai dengan AISI maupun ISO 17020 : 2012. Kami juga menggunakan metode dan peralatan mutakhir dan akurat yang dapat diandalkan seperti Laser Scanner.

#### Jenis Produk Jasa

1. Tally Survey
2. Volume Survey
3. Weighting Survey

*and coal mining industry through the provision of product testing services by setting up laboratories both at the mine site and at our branch office closest to the mining sites that are spread throughout Indonesia.*

#### Type of Product Services

1. Quality Analysis
2. Channel sampling
3. Pre-Shipment Inspection
4. Shipment Sampling
5. Quality Control
6. Test Bias

#### Quantity Survey

*Quantity survey is a service for calculating quantities of commodities / products from coal and minerals, which can be carried out at every stage of the activity at the mining site, up to the delivery process carried out by experienced and competent inspectors in accordance with AISI and ISO 17020: 2012. We also use the method and reliable and up-to-date equipment such as Laser Scanners*

#### Type of Product Services

1. Tally Survey
2. Survey Volume
3. Weighting Survey

#### 4. Draught Survey

Supervision, Process Safety, and Environmental Management

Merupakan layanan jasa survei, inspeksi, konsultasi dan sertifikasi yang diberikan dengan tujuan untuk menginformasikan kualitas dan kuantitas komoditi/produk batubara serta memberikan dukungan kepada klien dalam memenuhi Good Mining Practice di setiap tahapan penambangan

Jenis Produk Jasa

1. Survei Kuantitas dan Kualitas
2. Manajemen Blending
3. Coal and Mineral Handling Management
4. Manajemen Stockpile
5. Audit Sistem Keselamatan Manajemen Pertambangan
6. Jasa Pengujian Kelayakan Peralatan/ Instalasi Tambang
7. Reklamasi Pasca Tambang
8. Monitoring Lingkungan Tambang

Verifikasi

Layanan jasa inspeksi penjualan komoditi/produk dari batubara dan mineral untuk tujuan dalam negeri maupun luar negeri, serta kemajuan pembangunan smelter yang dilakukan berdasarkan Peraturan Menteri Perdagangan, Peraturan Menteri ESDM, Keputusan Direktur Jenderal Kementerian ESDM, Peraturan Gubernur dan Peraturan Bupati.

Jenis Produk Jasa

1. Verifikasi Ekspor
2. Verifikasi Penjualan Domestik
3. Verifikasi Fasilitas Pemurnian Mineral (Smelter)

Sejumlah peraturan yang menjadi dasar dalam melakukan kegiatan mulai dari pemerintah pusat hingga pemerintah daerah diantaranya terkait :

1. Peraturan Menteri Perdagangan Nomor 95 Tahun 2018 Tentang Perubahan Ketiga Atas Peraturan Menteri Perdagangan Nomor 39/M-DAG/PER/7/2014 Tentang Ketentuan Ekspor Batubara dan Produk Batubara

#### 4. Draught Survey

Supervision, Process Safety, and Environmental Management

*Is a survey, inspection, consultation and certification services provided with the aim of informing the quality and quantity of commodity / coal products and providing support to clients in fulfilling Good Mining Practice at each stage of mining*

**Types of Product Services**

1. *Quantity and Quality Survey*
2. *Blending Management*
3. *Coal and Mineral Handling Management*
4. *Stockpile Management*
5. *Mining Management Safety System Audit*
6. *Equipment Feasibility Testing Services / Mining Installation*
7. *Post Mining Reclamation*
8. *Mining Environment Monitoring*

**Verification**

*Inspection services for the sale of commodities / products from coal and minerals for domestic and overseas purposes, as well as the progress of smelter development based on the Minister of Trade Regulation, ESDM Ministerial Regulation, Decree of the Director General of the Ministry of Energy and Mineral Resources, Governor Regulation and Regents Regulations.*

**Type of Product Services**

1. *Export Verification*
2. *Verification of Domestic Sales*
3. *Verification of Mineral Purification Facilities (Smelters)*

*A number of regulations which are form the basis of conducting activities ranging from the central government to regional governments include:*

1. *Regulation of the Minister of Trade No. 95 of 2018 concerning the Third Amendment to the Regulation of the Minister of Trade Number 39 / M-DAG / PER / 7/2014 concerning Provisions on the Export of Coal and Coal Products*

2. Peraturan Menteri Perdagangan Nomor 01/M-DAG/PER/1/2017 Tentang Ketentuan Ekspor Produk Pertambangan Hasil Pengolahan dan Pemurnian
3. Peraturan Menteri Perdagangan Nomor 04/M-DAG/PER/1/2007 Tentang Ekspor Timah Batangan
4. Peraturan Menteri Energi Sumber Daya Mineral Nomor 50 Tahun 2018 Tentang Perubahan Atas Peraturan Menteri Energi dan Sumber Daya Mineral Nomor 25 Tahun 2018 Tentang Pengusahaan Pertambangan Mineral dan Batubara
5. Peraturan Dirjen Mineral dan Batubara Nomor 481.K/30/DJB/2014 Tentang Tata Cara Penetapan Surveyor Untuk Verifikasi Analisa Kualitas dan Kuantitas Penjualan Batubara
6. Peraturan Bupati Bintan Nomor 8 Tahun 2008 Tentang Verifikasi Atau Penelusuran Teknis Ekspor Dan Penjualan Antar Pulau Untuk Bahan Galian Golongan C Pada Perusahaan Pertambangan di Kabupaten Bintan
7. Peraturan Bupati Karimun Nomor 21 Tahun 2008 Tentang Verifikasi Penjualan Antarpulau Bahan Galian C Kabupaten Karimun
8. Peraturan Gubernur Bangka Belitung Nomor 53 Tahun 2016 Tentang Tata Cara Penetapan Harga Patokan Mineral Bukan Logam dan Batuan di Wilayah Provinsi Kepulauan Bangka Belitung
2. *Regulation of the Minister of Trade No. 01 / M-DAG / PER / 1/2017 concerning Provisions on the Export of Processing and Refining Mining Products*
3. *Regulation of the Minister of Trade No. 04 / M-DAG / PER / 1/2007 concerning Tin Bar Exports*
4. *Regulation of the Minister of Energy and Mineral Resources Number 50 of 2018 concerning Amendment to the Regulation of the Minister of Energy and Mineral Resources Number 25 of 2018 concerning Exploitation of Mineral and Coal Mining*
5. *Regulation of the Director General of Mineral and Coal No. 481.K/30/DJB/2014 Regarding Procedures for Establishing Surveyors for Verification of Analysis of Quality and Quantity of Coal Sales*
6. *Regulation of the Regent of Bintan Number 8 of 2008 concerning Verification or Technical Inquiry of Inter-Island Exports and Sales for Group C Galian Material in Mining Companies in Bintan Regency*
7. *Karimun Regent Regulation Number 21 Year 2008 Concerning Verification of Inter-island Sales of Galian C in Karimun Regency*
8. *Bangka Belitung Governor Regulation Number 53 Year 2016 Regarding Procedures for Determining Benchmark Prices of Non-Metallic Minerals and Rocks in the Bangka Belitung Islands Province*

## Migas & Energi

*Oil, Gas & Energy*

PT Surveyor Indonesia adalah perusahaan surveyor independen dengan reputasi yang baik sebagai pihak ketiga yang tidak memihak dan selalu mengutamakan kepuasan pelanggan. Reputasi kami telah banyak berkembang dalam memberikan jasa survei, inspeksi, konsultansi dan telah lama berpengalaman dalam berbagai bidang pemerintahan kepada pelanggan

*PT Surveyor Indonesia is an independent surveyor company, with a good reputation as an impartial third party and always fulfill the customer satisfaction. Our reputation has evolved in providing survey services, inspection, consultancy and has long period of experiences in various fields to customers including government, state-owned enterprises, private*

baik pemerintah, BUMN, perusahaan swasta serta perusahaan asing.

#### Engineering & Supervision Services

Engineering and Supervision Services adalah layanan jasa dalam melakukan kegiatan yang mengaplikasikan berbagai prinsip-prinsip disiplin ilmu yang bertujuan untuk mendefinisikan peralatan, proses, atau sistem secara detail sehingga dapat direalisasikan dan memastikan mutu yang mengacu pada code, standard atau spesifikasi yang sesuai dengan keinginan pemberi kerja atau yang dipersyaratkan.

##### Jenis Produk Jasa

- Studi Kelayakan
- Front End Engineering Design (FEED) Consultant
- Detail Engineering Design
- Project Management Consultant (PMC)
- Vendor Assessment Consultant
- QA/QC Supervisi
- Supervisi Konstruksi Migas
- Perencanaan Pengadaan Lahan

#### Geotechnical & Offshores Services

Geotechnical Offshores Services adalah Layanan jasa yang berkaitan dengan desain dasar dan konstruksi, pemeliharaan untuk struktur yang berada di lepas pantai seperti platform, pipa bawah laut dan lainnya.

##### Jenis Produk Jasa

- Survei Kenavigasian di Offshore
- Survei Mooring System
- Underwater (ROV) Survey
- Underwater Construction & Pipe Lying Support
- Underwater NDT Inspection & Certification
- Underwater Maintenance & Repair
- Mooring System Maintenance
- Laboratorium Core Analysis
- Topography and Bathymetry Survey
- Survei Geologi dan Geoteknik
- QA/QC Supervisi

#### *companies and foreign companies*

#### Engineering & Supervision Services

*Engineering and Supervision Services are services in conducting activities which apply the principles of science discipline that aims to define equipment, processes, or systems in detail so that it can be realized and ensure the quality refers to the code, standard or specification in accordance with the employer's intention or required thereof.*

##### Type of Product Services

- Feasibility Study (FS)
- Front End Engineering Design (FEED) Consultant
- Detail Engineering Design
- Project Management Consultant (PMC)
- Vendor Assessment Consultant
- QA/QC Supervision
- Construction Supervision of Oil and Gas
- Land Acquisition Planning

#### Geotechnical and Offshores Services

*Geotechnical Offshores Services are services related to the basic design and construction, maintenance for structures located in offshore, such as subsea pipelines platform and others.*

##### Type of Product Services

- Navigation survey in Offshore
- Mooring System Survey
- Underwater (ROV) Survey
- Underwater Construction & Pipe Lying Support
- Underwater NDT Inspection & Certification
- Underwater Maintenance & Repair
- Mooring System Maintenance
- Core Analysis Laboratory
- Topography and Bathymetry Survey
- Geological and Geotechnical Survey
- QA/QC Supervision

- Studi kelayakan dan perizinan lapangan migas dan energi
- Engine Inspection
- Vessel Inspection
- RIG Move
- Pipeline Inspection
- Asesmen Dermaga di Area Migas

#### Energy Conservation Services

Energy Conservation Services adalah layanan jasa suatu aktivitas rekayasa untuk penghematan energi, tanpa mengorbankan prinsip teknis, keamanan, kenyamanan sehingga diperoleh biaya yang paling optimal dan efisien sesuai harapan. Upaya konservasi energi diterapkan dengan menggunakan teknologi yang efisien, dan membudayakan pola hidup hemat energi.

#### Jenis Produk Jasa

- Eksplorasi Geothermal
- Audit Energi
- Energy Services Company (ESCO)
- Konsultansi Manajemen Energi ISO 50001

#### Asset Integrity Management Services

Asset Integrity Management Services adalah layanan jasa yang secara efektif dapat mengelola aset perusahaan untuk mendapatkan nilai maksimum, dan memberikan keuntungan dengan pemenuhan keselamatan kepada

- *The feasibility study and permit of oil and gas fields and energy*
- *Engine Inspection*
- *Vessel Inspection*
- *RIG Move*
- *Pipeline Inspection*
- *Jetty Assessment in Oil and Gas Area*

#### Energy Conservation Services

*Energy Conservation Services is an engineering activities services for energy savings, without compromising the principles of technical, safety, comfort in order to obtain the most cost efficient and optimal as expected. Energy conservation efforts shall be implemented by using efficient technology, and cultivate energy-saving lifestyle.*

#### Type of Product Services

- *Geothermal Exploration*
- *Energy Audit*
- *Energy Services Company (ESCO)*
- *ISO 50001 Energy Management Consultancy*

#### Asset Integrity Management Services

*Asset Integrity Management Services is services that can effectively manage the company's assets to obtain maximum value and benefit to the fulfillment of the safety of the installation, personnel and environment.*

instalasi, personil dan lingkungan sekitar.

#### Jenis Produk Jasa

- Sertifikasi Layak Operasi Pembangkit/ Jaringan/ Distribusi Listrik
- Plant Life Time Assessment
- Plant Reengineering
- Plant Risk Assessment
- Statutory Inspection untuk instalasi & peralatan Migas & Energi
- ISPS Code Verification
- Jasa Operation & Maintenance (O & M)
- Konsultansi Manajemen Aset PAS 55
- HSE Due Diligence

#### Process Safety Management Services

Process Safety Management Services adalah layanan jasa dalam penerapan prinsip-prinsip manajemen dan sistem untuk mengidentifikasi, memahami dan mengontrol bahaya pada suatu proses untuk mencegah terjadinya kecelakaan yang berhubungan dengan proses tersebut.

#### Jenis Produk Jasa

- Verifikasi Dokumen Pengendalian Potensi Bahaya Besar
- Konsultansi Process Safety Management
- Management Resiko

PT Surveyor Indonesia sebagai PJK3 Bidang Pemeriksaan dan Pengujian Lingkungan Kerja dan Bahan Kimia Berbahaya diberi amanat sebagai Pelaksana Verifikasi Dokumen Pengendalian Potensi Bahaya Besar/ Menengah berdasarkan Keputusan Direktur PNK3 No. Kep.170/PPK-PNK3/V/2013 dalam rangka memberi jaminan bahwa isi Dokumen Pengendalian Potensi Bahaya Besar/ Menengah telah sesuai dengan peraturan perundangan-undangan dan atau standar teknis yang berlaku dan dibuktikan dalam bentuk Berita Acara Verifikasi Dokumen dan Lapangan serta Izin Memulai Operasi (Licence to Initial Start Up).

#### Type of Product Services

- *Operation Worthy Certification of Power Plant Operations/ Network/Power Distribution*
- *Plant Life Time Assessment*
- *Plant Reengineering*
- *Plant Risk Assessment*
- *Statutory Inspection for Oil Gas & Energy installations and equipment*
- *ISPS Code Verification*
- *Operation & Maintenance (O&M) Services*
- *PAS 55 Asset Management Consultancy*
- *HSE Due Diligence*

#### Process Safety Management Services

*Process Safety Management Services is services in the application for the principles of management and systems to identify, understand and control hazards in a process to prevent the occurrence of accidents associated with the process.*

#### Type of Product Services

- *Verification of Document for Controlling Great Potential Dangers*
- *Safety Management Process Consultancy*
- *Risk Management*

*PT Surveyor Indonesia as PJK3 in the Field of Inspection and Testing of Working Environment and Hazardous Chemicals is given the mandate as the Verifier of Controlling Document of Large/ Medium Potential Dangers by Decision of the Director PNK3 No. Kep.170/PPK-PNK3/V/2013 in order to ensure that the contents of Controlling Document of Large/Medium Potential Dangers is in accordance with applicable laws and regulations or technical standards and by virtue of the form of Minutes of Document Verification and Field and License to Initial Start Up.*

## Supply Chain Management Services

Supply Chain Management Services adalah layanan jasa dalam mengintegrasikan, mengkoordinasi dan mengontrol proses rantai pasokan agar proses tersebut dapat dilakukan secara efektif dan efisien untuk memaksimalkan nilai yang bisa didapatkan oleh konsumen serta untuk mencapai suatu keuntungan yang berkelanjutan.

### Jenis Produk Jasa

- Laboratorium Petrokimia
- Verifikasi Rencana Impor Barang (RIB)
- Quality & Quantity Distribusi Produk Petrokimia
- Pengawasan Distribusi Bahan Bakar Minyak (BBM) dengan Moda Kapal dan Non Kapal
- Pengawasan Loading and Unloading Petrochemical Product

PT Surveyor Indonesia telah banyak mengembangkan dan memberikan jasa survey, inspeksi dan konsultasi kepada pelanggan baik pemerintah, industri dalam negeri maupun luar negeri. PT Surveyor Indonesia telah cukup berpengalaman dalam jasa pelayanan inspeksi dan verifikasi di dunia migas dan petrokimia, dan bermitra dengan perusahaan-perusahaan inspeksi asing yang memiliki jaringan global.

## Oil & Gas Exploration and Production Services

Oil and Gas Exploration and Production Services adalah layanan jasa dalam memberikan dukungan inspeksi, survei, konsultansi dan monitoring terhadap setiap mata rantai dari reservoir sampai kilang minyak dan gas bumi.

### Jenis Produk Jasa

- Laboratorium Migas
- Pengawasan Lifting Minyak Mentah
- Pengawasan Stok Minyak Mentah
- Lidar dan Photo Udara
- Volumetrik Survey
- Survei Seismik

## Supply Chain Management Services

*Supply Chain Management Services is services in integrating, coordinating and controlling the supply chain process therefore the process can be carried out effectively and efficiently to maximize the value that can be obtained by consumers as well as to achieve a sustainable advantage.*

### Type of Product Services

- *Petrochemical Laboratory*
- *Verification Plan for Imported Goods (RIB)*
- *Petrochemical Products Distribution Quality & Quantity*
- *Fuel Distribution Supervision by Vessel and Non-Vessel Equipment*
- *Petrochemical Product Loading and Unloading Supervision*

*PT Surveyor Indonesia has developed and provided many of survey services, inspection and consulting services to customers including government, domestic and abroad industries. PT Surveyor Indonesia has sufficient experiences in inspection and verification services in the field of oil and gas and petrochemicals, and partnering with foreign inspection companies that have global network coverage.*

## Oil & Gas Exploration and Production Services

*Oil and Gas Exploration and Production Services is services in providing support for inspections, surveys, consultancy and supervision of each chain from reservoir to oil and gas refineries.*

### Type of Product Services

- *Oil and Gas Laboratory*
- *Crude Oil Lifting Supervision*
- *Crude Oil Stock Supervision*
- *Lidar and Air Photo*
- *Volumetric Survey*
- *Seismic Survey*
